who I am

Hi. I'm Árpád Kiss, 24, creative technologist currently located in Budapest. I do creative things on the computer since I turned to 8.

works

I started my professional career back in 2005. I designed and developed close to 100 websites, social apps and mobile applications during the years.

I use Adobe Photoshop, Illustrator and Sketch for design purposes.

studies

Between 2009-2014 I made an Engineering Information Technologist BSc at Óbuda University, took a semester at Universitat Koblenz-Landau in 2012.

competitions

Scientific Students Conference 2014, 2nd place @ Óbuda University
Swiss-Hungarian Startup Challenge 1st place with a startup project: Dice
24h programming competition 2012, 3rd place @ Óbuda University

skillset

Strong theoretical background in CS, design thinking, experience in project planing and management, leader characteristic, out of the box mindset and fast learning.

why I applied to MOME

I want to widen my horizons about design, fill the gaps in my knowlege and be a part of a great community.

Easy Saturday morning. You have a whole bright day and a warm summer night ahead of you. You have spring in your steps and boogie in your feet. But no program yet and gnawing through all those unusable program pages...just wouldn't really fit the mood.

We think you should just roll the Dice and let yourself be surprised!

With it's intelligent technology, Dice will find all the events you will enjoy, based on what you and your friends already like, share and listen to within you social profiles. Discover new music, places and experiences! Online and offline, night or day, inviting old friends in an instant or finding new ones to have fun with: Dice is here to get you rollin'!

Want to be amongst the first who roll it like a boss? Sign up for Closed Beta now!
